

■ CAST STEEL PARTS

For all those who require high-quality components used world-wide, especially in the

- **Cement, soil and stone industries**

Slabs, hammer crushers for raw materials, bi-metal hammer crushers, grinding cladding, corrosion-resistant parts, plates, chain-chain links, conical crushers

- **Construction, mining, crushers**

Jaws for jaw crushers, primary, secondary, primary crushers and spare parts for crushers, spare parts for conical and vertical hammers, bi-metal crusher plates

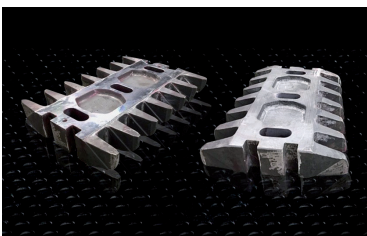

- **Conveyor technology**

Chain links for bucket wheel excavators, bucket-chain dredgers and spare parts for conveyor technology

- **Machine manufacturing**

Pump bodies, gearwheels, crane wheels, rolling bearings

Cast bodies of cast steel can withstand high, multi-axis loads due to their high strength in conjunction with high elongation values.
